Platform Randomised trial of Interventions against CCOVID-19 In older peopLE

PRINCIPLE Trial

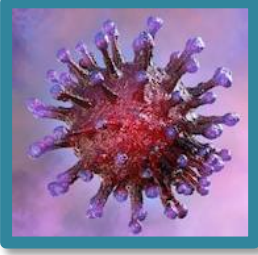

Platform Randomised trial of Interventions against COVID-19 In older people

Pictorial Participant Information Booklet v2.5, 13 March 2021,

EudraCT number:2020-001209-22

Professor Christopher Butler IRAS Project no. 281958 REC Reference no.:20/SC/058

What is the trial about?

	1. COVID-19 is caused by a new virus that is spreading quickly in many countries.
	2. Being infected with the virus is more likely to cause more serious problems if you are older, or you have medical problems such as a diagnosis of high blood pressure or heart disease.
	3. At the moment, we do not have treatments for COVID-19 that we know definitely work to help recovery and prevent hospitalisation.

Professor Christopher Butler IRAS Project no. 281958 REC Reference no.:20/SC/058

The aim of this trial is to test possible treatments for COVID-19. We hope to find treatments that help people recover quicker.

4. We are testing treatments that have been used for many years. We will also assess less familiar treatments which might have beneficial effects for the treatment of COVID-19, but which do not yet have a license for use in the UK. There are no reasons to believe the medicines are unsafe. A trial nurse/doctor and/or

What will happen to my information?

	17.	We will use the information you give us to find out which treatments work. We may also look at your general practice and hospital medical records for further information about you and your illness.
	18.	Any information that we collect about you will be kept safe. Your name will not go on any reports, presentations or publications.

Professor Christopher Butler IRAS Project no. 281958 REC Reference no.:20/SC/058

What are the disadvantages of taking part?

19.

There is a risk of side effects when taking any medicine. If you are taking a trial medication and have any symptoms, you can record them in the daily online diary. A trial doctor will monitor any side-effects you may experience and contact you or your GP if needed. You will also be able to call the trial nurse/doctor if you experience any side-effects.

EudraCT number:2020-001209-22

Professor Christopher Butler IRAS Project no. 281958 REC Reference no.:20/SC/058

What are the benefits of taking part?

	20.	You will be contributing to important research to find effective treatments for COVID-19.
	21.	We have designed the trial so that whilst the trial is ongoing, if we find that one treatment is more effective, more people might receive this treatment. This means that more people in the trial have a chance of receiving the most effective trial treatment.

Will I be reimbursed for taking part?

	22.	You will receive a gift voucher for £20 once we receive your completed online symptom diary, as a thank you for taking part.
---	-----	--

What if I do not want to carry on being part of the trial?

	23.	You can decide to stop taking part at any time without needing to give a reason. This will not affect the care you receive now or in the future.
